THE REPUBLICAN TICKET.

For Mnyor, HERBERT M. LEROU. For Aldermen, VETHUR L PEALE, For Councilmen,

For Collector of Taxes, or City Trensurer, For City Sheriffs, IARLES H. RAYNES. For Water Commissioner, HUGH BLACKLEDGE.

NORWICH CITY ELECTION.

After two years of democratic contro the city government, the citizens of rwich have their opportunity today to elect an efficient republican administra-The names which are offered in the republican ticket are such as to inspire confidence and these candidates should have the unqualified support of all citizens who are solicitous for the best interests of their city. From Herhert M. Lerou, the candidate for mayor, down through the rest of the ticket there is to be seen assurance of a business-like conduct of city affairs, for the election of a solid republican constituency to the common council will add to the men of that party now there a working force of active and energetic business men competent to handle city problems along progressive and constructive lines.

Exercise of the franchise is a privilege that no voter should neglect, and there is every indication that the vote will be

THRIFT AND WASTE PAPER.

Economy and thrift were words that familiar to us during the war years. We were told that thrift would win the war and were urged to save in a number of different ways.

Something of the emphasis on thrift weems to have been lost since the war urgency passed over but it is interesting at vation of white paper is before the pubto note what is being done by the children of the St. Louis schools in con tinuing their thrift education through paper saving. Not only saving of paper has become a part of a well planned syslem of education in the St. Louis schools, but the children are being taught that a great many things can be made use of week? and have a real value that are now hrown away.

When it is reported that the prospects are that over \$15,000 will be secured before the close of schools in June it can be readily seen that the thrift campaign is really gaining the proportions of "big business." Over 100,000 pupils in 135 schools now participate in this work, bringing in old newspapers, magazine and heales that are sold to dealers ! waste paper. The proceeds go to the teachers' annuity association.

That the schools are not only doing a very important work in raising money for a worthy cause but are also of material assistance in Helping to conserve the constantly lessening supply of white paper, is indicated by some of the figares submitted. For the year of 1919 the schools collected a total of 901 tons of For the past seven months or since the schools opened last September they have collected 565 tons, of which 513 tons consisted of newspapers and 53 tens consisted of magazines. Since the start of the paper saving movement, u grand total of \$37,813.34 has been realized from its sale.

What St. Louis is doing can be done by any other city. Think what it would mean to the paper situation if the malerity of our cities would contribute helr quota of waste paper and think much money could be earned for some worthy cause.

SIXTY-SIXTH CONGRESS.

Naturally enough the president who demanded the signing of the peace treaty without the change of dotting of an striy-sixth congrers upon its adjourn-

From the outset President Wilson in vited untagonism on the part of congress. It was elected against his earnest plex for the defeat of the majority of its members and he had adopted a policy towards the 1918 elections which invited a retaliatory spirit and tended to nullify any claim for consideration in personal or party politics which he migh situation in which for a long period the president has been practically incapacitated and congress and the people have been kept in ignorance of his true men-

ident because of the peace treaty and contested because he tied up his fortune other matters have brought to naught until his grandsons become 50, wanted much of the work of congress, but this to keep them from leading useless lives has been no laggard body. The saving of luxury and idleness he should have of a billion dollars to the taxpayers by given his money to charity and thus the lopping off of appropriations and made them get out and hustle instead of

in which congress has met national de mands and popular expectations. This probably seems hardly worth mentioning to an administration that showed such tender consideration for the Louisiana sugar planters and such disregard of the public welfare by its failure to secure the Cuban sugar crop; that is re sponsible for the Eurlesonizing of the post office department, and the fantastic manipulation of the navy by Daniels.

Of course there have been failures to pass legislation that many members and their constituents deem important. Some of these owe their failure to late introduction. In the closing hours, for in stance, it was deemed impossible to give onsideration to an embargo on coal exportations in order to assure New England a fuel supply.

WINDHAM MOONSHINE.

Is Windham county out to grab the "moonshine" crown long worn with unique distinction by Kentucky? Time has been that Connecticut's chief interest and information as to "moonshine" has been that it furnished a subject for stirring reels in the movies, but arrests made last week in this section of eastern Connecticut, with the location of stills and the seizure of quantities of the illicit liquer, bring the subject closer home.

Any inveterate patron of the motion

picture houses will have no difficulty in isualizing the stage setting-the wild. ragged, desolate looking countryside, the located, the skulking mountaineer with his trusty rifle, the wild rides along nountain and forest naths in the moonlight, and the searching revenue officer em a bullet was waiting from almost any bush or tree along the road-

Eastern Connecticut, in either New London or Windham countles, can qualify in any number of its back-country sections as far as topographical characteristics are concerned to make an admirable locus for the "moonshine" industry. There are wild and abandoned disricts, far enough from the lines of reg-

ar travel, to satisfy the most exactg evaders of the Volstead law, and doubtless there will be no lack of insensity and enterprise on the part of those whose respect for law would not be proof against the incentive of large financial profit from the manufacture of likely to burn again the next time it is used.

Is "Windham moonshine" about to carve a place for itself alongside the lightning" that comes from the state over which Governor Edwards presides?

Word to the effect that some states are ncreasing planting is good news. It will needed to offset those where planting has decreased.

By the simple expedient of throwing epper into a clerk's eyes the diamond thieves proceed merrily with their trade in New York city.

The fact that the federal reserve board doesn't see any early relief from the high cost era doesn't prevent others from doing some thinking.

The man on the corner says: Th price of sugar is a "sweet" reminder of the lack of business acumen of the democratic administration.

A Norwich retail grocer assured a themselves with this for days. Wrap in householder that sugar would be plenty an oiled paper to keep from hardening at 27 cents. If the price went lower there would be a shortage.

The agreement on the form of the budget measure ought to insure early passage of this bill though it has

taken a long time to do it. With the announcement that the bo without the change of dotting of an shevik government shows a deficit of over 23 billion rubles for the year it will mean a speeding up of the printing

> After being told so often that they were coming down only to be fooled, the people all jumped at the cut prices these days for fear that they will bound back into high.

The government did what it could to contribute to the paper shortage. Last year 61,000,000 copies of government publications were distributed-and prob ably largely thrown into the waste basket by those who received them.

If Marshall Field, whose will is being of the railroad and water giving them a chance to break the will waver bills have been some of the ways or discounting it.

WOMAN IN LIFE AND IN THE KITCHEN

SUGGESTIONS FOR

THE HOUSEWIFE A novel salad is a Danish one made of herring and beets. Roller shades of printed chintz are

best for the sun parlor. Never fail to wash poultry before it is prepared for the table. Beans will take the place of meat for

wo made each week. For large steamed puddings it is best to use a tube shaped mold. Brush bread with cold water instead of

fat while it is rising; this prevents the formation of crust.

Save oil paper to spread between the doily and the woodwork, if a flower pot stands on the doily. Potatoes and parsnips cooked can be served together if persons find the flavor of parsnips alone too strong.

Newspapers sewed together and cov-ered with cloth will make a good pad to use on a dining room table. For grated cheese sandwiches

the bread first, then sprinkle grated cheese on it and brown in the oven. Prepared horseradish is not so good as that which you grate and prepare at

Old fashioned Indian pudding is a goo single dish for the luncheon table. Kerosene exterminates roaches. Merely' wet a clean rag with it and press it in

the holes or corners where roaches enter. To make a little coat hanger for the baby's coat cut a piece of cardboard in the shape of a hanger, get any kind of a hook and fasten it in the cardboard and cover it in pink and blue.

Melt a lump of suct in the liquor of boiling fewl. When cold fat is removed is one cake and good for shortening.

BRASS FAUCETS. For cleaning brass faucets, lemon and salt have been recommended. A bright polish does result, but follow the acid by a rub with sweet oil or verdigris forms in an the moldings.

CLEANING SAUCEPANS. If the saucepan burns do not put soda

DRY CLEANING.

Dry cleaning may be done at home with good results if a few suggestions of care

are observed.

It is preferable to do the cleaning out doors if possible; if within the house it should not be done where there is a fire. A sufficient quantity of the cleaning fluid should be ready. A pad of clean cloth underneath the place to be cleaned will absorb the stain and extra cleaning fluid.

campaign to disturb and demoralize the social and economic conditions of the country. In other lands very serious The material should be pressed after the fluid has been given time to evap

pretty arms.

Long white gloves will doubtless be worn by the smartest women, but for those looking for the odd and unusual in dress the new two color gloves will im-

mediately appeal.

They are made of washable cape skin with embroidered backs in black, tan and brown. The color combinations are pearl with putty, black with white, gary with sand and Newport with brown.

CARE OF SILK PARASOL.

When a silk parasol is not in use, if tissue-paper is stuffed in each division to prevent the usual crease, this will prevent the silk splitting, as it so often does on the crease before the parasol is worn elsewhere. They say this lengthens that life of a parsol at least one season or

BIB TO MATCH DRESS. Table bibs for older children, made of the same material as their play dresses, are less conspicuous than white ones. When the dresses need alteration or patches the bibs will match better than new material, since they has viben sub-jected to the same wearing and bleaching process as the garments

LAUNDRY NOTES. New stockings should always be wash-ed before being worn. Powdered orris root under the ironing

blanket will perfume the muslins that are ironed over it.

blanket will perfume the muslins that are ironed over it.

The best way to launder embroidered linen and make it look new and glossy is to wash and ringe it well, then want it out of water as hot as you can possibly bear your hands in; let it lie a short time wrapped in a towel or other clean cloth; then iron.

When washing crocheted yekes, if a small hand brush is used it will be much getter and saves the yokes tear and wear.

For a convenient back-porch or kitchen clothesline take two large screw-eyes and one hook. Place one screw-eye very hith on wall and the heavy cord to this, then place other screw-eye on the opposite side of kitchen and let cord come through this from the top. Place the hook in convenient reaching distance on side of wall and wind cord around this to hold line in place. Your line can be let up or down and tea backs and clothes are rulled up close to the ceiling and out of the way.

LETTERS TO THE EDITOR

Courthouse Damage and the Tinsmiths. Mr. Editor: Mr. Fox seems to think that by a general denial of the few facts quoted by me form the tinsmiths' docu-uments, he can divert you and your read-ers into the belief that this is not a pub-lic matter, but only a personal discus-sion between himself and me.

This is not the case. My quotations are facts, word for word taken from papers served on all the employing firms of the city, and presumably of New London, also, as the documents new before me are subscribed:

"Lordon, 255 Amulgaments Short Matal." "Local 55, Amaigamated Sheet Metal

Workers, Norwich and New The matter of dates, of which Fox makes a point—is not important—but the document before me dates the proposed agreement as follows:
"To take effect May 1, 1920, and to continue in effect until May 1, 1921."
This and the two other papers, were submitted with a blank space to be fill-

ed in by employers as agreeing to their terms and provisions, and the envelope has the Norwich postmark, "April 4. p. m."
The date, as I stated, is May 1, 1920 With the none too becoming short sleeves gaining steadily in popularity, it means that long gloves, despite the exemplification, prices asked for them these thority over them. The plumbers should orbitant prices asked for them these thority over them. The plumbers should days, will be worn, will have to be worn be their own men, until their agreement by hundreds of women not blessed with with their employers expires. But when

Mr. Fox sends us a list of the men (4) plumbers representing the journeymen who in the name of their local have agreed to the restrictions imposed on them by the tinsmiths. Mr. Fox, and all the rest of us, can tell why the plumber left the city hali roof unfinished and in an exposed condition. Furthermore, the demand for compensation from May 1, 1302, to May 1, 1321 was to be one dollar per hour, which is 37 1-2 cents per hour more than the journeymen plumbers and fitters are getting. This shows that the tinsmiths think themselves worth more than the plumbers, and hence have a right to grant them the privileges named in their edictamong which is to work for one hour on a job where a tinsmith is not available. If the plumber on the courthouse roof had been smart, he might have worked an hour at a time, taking a rest of five minutes between, and got the job finished, but I suppose this action, when reported would have to have been referred to the joint committee for judgment, I now give his article, which Mr. Fox sald I omitted—and which shows that the matter of "jurisdiction" is considered and claimed under the head of Concessions: namely Article 5.

"In any case where doubt as to jurised and claimed under the head of Con-cessions; namely Article 5.
"In any case where doubt as to juris-diction may arise, the matter to be re-ferred to a joint committee of each lo-cal." As Mr. Fox is on this committee, we would recommend him to study the language of these articles before he again attempts to write on the sub-ject.

to Pekin. Events make sport of the schemes of mice and men. McKinley entered the race for the presidency on the tariff issue, was elected on the money . . . and the greatest problems that confronted him in the White House were the fate of a chain of islands of the coast of Asia and the destiny of China!

Spain had been engaged for two years in a desolating struggle to hold in sub-jection the revolting island of Cuba, and two happenings pushed McKlinley into the conflict in spite of himself. In a pri-vate letter, the Spanish Minister at Washngton scoffed at the President as politicastro"—in plain American, "seanut politician"—and plainly intimate that the fair promises which the Span-iards were giving him were only a trick to fool the administration and the Amreican people. Within the week of that exposure, the battleship Maine was blown up in Havana Harbor, with the loss of 266 American lives.

months the popular outcry of "Remem ber the Maine," the President yielded, and war was declared. In ten days Dewey had smushed the enemy squadron Manial Bay; in ten weeks, another squadron was sunk or captured off Santiago; in three months and a half poor old Spain threw up the sponge

Our navy proved itself efficient an quickly destroyed what small resistant quickly destroyed what small resistance the outmatched for could hope to outer Our little army of 275,000 men proved to killed in action or dying of wounds, but sacrificing 2,565 lives to disease—pitiful victims, for the most part, of unsanitary mps here at home. The small expeditionary force in Cuba

easily whipped the armed foe in front of it, but was nearly compelled to retreat by invisible foes in its rear; pleagues and hunger. Untrained and in competent line and staff officers—poli tidians and "cons of somebody"-were largely responsible for the breaking down of camp hygiene, the medical service and the service of supply. It took twice as long to make peace

as to make war. The Philippines caused all the trouble. As we had not cap-

tured the islands in the war, many believed that we should let them alone But McKinley decided to demand from Spain the surrender of the Philippines. The memebrs of the Cabinet were di vided, Judge Day, the secretary of state who became the head of our peace com mission, favoring the annexation of nothing more than a naval base. the end of a long discussion the secr

tary asked why his motion was not put to a vote. " Iwas afraid it would to to a vote. "I was atraid it would be a fresh outbreak of rivalry among the European powers for ports and islands and spheres of inbuence, particularly in the Far East, and the president was ambitious to open for the country a new Mr. Chester H. Miller of 21 Happy St., era in its relation to the world. Norwich, Says: - CINOT Is the currents of destiny are flowing through Greatest Stomach Medicine That He the hearts of the American people, confidently announced as he felt the pub-lic pulse on a Western tour.

A cry of imperialism was raised against this plures into Asia. The "anagainst this pluese but Asia. The "anuished republica..... virtually all the democrats, and the treaty of beace was ratified at last with only one vote to

spare in the senate.
Without waiting for ratification, the president dispatched a military expedition to take over the Philippines, proclaiming to the revelting Filipinos the poll cy of "henevolent assimilation." The re-sulting war dragged its unpleasant length of two years before the inhabitants unwillingly bowed to their new master. Not yet feeling the economic urge that drove Europe into the race for exploit-ing far-off lands. Americans have continued to be indifferent to commercia opportunities is the Philippanes, and the archipelago remains a liability rather than an asset on the national ledger.

of the Forbidden City of China. In the foreign legations from the siege of the murch on Pekin for the rescue of the Boxers, or Chinese revolutionists, the United States joined other powers for the first time in a military It is to the credit of the McKinley ad-ministration that it did what it could to curb the rapacity of the Japanese. German and Russian governments and soldiery , which brought infamy upon a campaign that was undertaken in the name of humanity. "What I want,"

the President said, in explaining his position, is the friendship of China when the trouble is over."

Under the high statesmanship of John Hay, the secretary of state the United States had already, before the Boxer reellion, laid a restraining hand upon the Nations that were looting Chinese territory and had drawn from them pledges to keep an "open door" to trade in the ports they were seizing at the point of the gun. The "open door" has remained ever since the chart of our course in the East. If we will only continue to follow it a while longer, until the giant of the Orient awakens from his long lumber and shakes off his foreign des ollers, an emancipated China well mposing monument of William McKin-

for the city election.

HAPPY STREET MAN TELLS HIS STORY

Has Ever Known. Mr. Miller who is well known in Norwich says:. "I have had stemach trouble and been bothered with uric acid and have been unable to eat very much and nothing sweet. I have taken two bottles of CINOT and was able to work four hours spading my garden without any bad effects, and I know I would not have been able to do this if it had not have been for CINOT and the best part of this all is that I can eat most anything now including some aweets which is remarkable owing to the condition that I formerly was in and I am glad to endorse the berbal

opportunities it the Philippanes, and the archipelago remains a hability rather than an asset on the national ledger. Having all that we can do at home, in the development of resources infinitely richer than those of any foreign field, there has been a tendency to leave the islands more and more to the Filipinos on somewhat the same terms that we left Cuba to the Cubans.

It was the strange fortune of a predict the Cubans, it was the strange fortune of a predict whose entire public life had been given exclusively to domestic questions, to plant the flag in the distant Philippines and to send it to the pink walls

Tonic CINOT."
